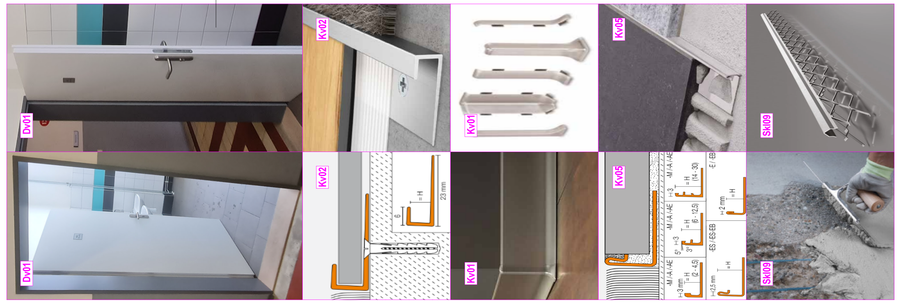
Příklady standardu návrhu detailu a výrobků:



Poznámky:

01. Odkazy na skladby Sk01-... jsou podrobně rozvedeny ve výpisu skladeb na výkresové příloze číslo D.1.1-06

02. Projektová dokumentace ekonomického zhodnocení a hlavního vstupu budova uřčena pro veřejné účelové řízení na dodavatele, přičož zbytek budov realizované stavbu ve stavu objektů. Realizace těchto dvou etap by měla proběhnout vždy v samostatném stavebním povolení. Z toho důvodu je nutné, aby každá z těchto etap byla samostatně funkčním celkem. Z toho vyplývá, že veškeré části, které budou realizovány v rámci jednotlivých etap, musí být zajištěny proti zatékání, zamezení průniku hluku, zachování požadovaných tepelně technických vlastností a požární bezpečnosti. Každá etapa musí být samostatně napojena na technickou infrastrukturu.

03. Konkrétní řešení tohoto členění etap je zřejmé z návrhu zdrojů. Jako projektové dokumentace, kterou tvoří rozpočet a stejný výměr pro zpracování veřejné soutěže.

04. Pro řádné zpracování projektu nebylo možné zohlednit původní projektovou dokumentaci školy zpracovanou v padesátých letech minulého století a dostupnou zprávy do stavebních konstrukcí nebylo možné za provozu provádět. Z tohoto důvodu je nutné počítat s možnými změnami v průběhu realizace stavby, které budou vyvolány skutečným stavem konstrukcí tak, aby pouze vyvolaný předpokladů, které musí být zvířeny při zahájení stavebních prací. Zároveň se upozorňuje na skutečnost, že v rámci stavby budou provedeny sondy do stávajících konstrukcí, které budou sloužit ke stanovení skutečného stavu. Tyto sondy budou sloužit ke stanovení stavu a projektantem akce rozhodnuto o pokračování podle projektu, nebo o případné další změně některých konstrukcí.

Kontrolní měřené údaje podlaží 3NP:

Sk04 - Plocha navrhované vinylové podlahy	144 m2
Dv01 - Nová dřevěná dveře s plechovým zárubněmi 800x1970mm	11 ks
